

# TW6: Simple Regression

Names: Alfin Abraham, Karthik Nalla

GitHub: [\(Alfin\) TW6 GitHub link](#), [\(Karthik\) TW6 GitHub link](#)

## **Summary:**

We gained an understanding of regression models in data science methodology after applying regression models on Covid-19 data set which we used earlier to perform EDA. We learnt about Machine Learning process and have become familiar with Python package functions for simple linear regression and logistic regression.
